European Veterans Employee Resource Group (VERG)

The Veteran Employee Resource Group (VERG) was created to support military veterans, current service members and their families, both inside and outside of Cummins through internal programme and community outreach opportunities. The VERG supports and advocates for the understanding of military veteran needs throughout Cummins, and also offers a buddy program for veterans within the group.

At Cummins, our European Veterans Employee Resource Group (VERG) is committed to supporting those who have served and continue to serve their countries. Our mission is to S.E.R.V.E – Support, Educate, Recognise, Volunteer and Empower for and on behalf of veterans across Europe.

The Veterans ERG provides a strong community where veterans, reservists and allies can connect, share experiences and contribute to meaningful initiatives. One of our key workstreams focuses on recruitment, ensuring that veterans are not only recognised for their unique skills and experiences but are also supported in building successful careers within Cummins.

Through advocacy, outreach and collaboration, the Veterans ERG continues to champion inclusion, belonging and opportunity for those who have served.

Our commitment to the Armed Forces community

Cummins is proud to actively support those who have served and continue to serve through meaningful partnerships and commitments that create real opportunities for veterans and their families.

WE ARE:

- A Gold Award Employer under the UK Armed Forces Covenant, recognised for our dedication to supporting the armed forces community.
- A proud partner of the Career Transition Partnership (CTP), helping service leavers successfully transition into rewarding civilian careers.
- In collaboration with Forces Families Jobs (FFJ), providing employment opportunities and support to military spouses and family members.
- These partnerships reflect our commitment to creating a workplace where veterans, reservists and their families can thrive, recognising the unique skills, discipline and leadership they bring to our organisation.

RICHARD T.
*Royal Navy
Submariner engineer*

Program Leader
in Product Development

“ After nearly a decade as an engineer in Royal Navy Submarine Service, I transitioned straight into Cummins in 2018 – and I’ve remained here ever since, thanks to the strong alignment between Cummins’ values and those I lived by in the military. ”

LESLEY R.
*Soldier and
Army Reservist*
Business Analyst

“ I joined Cummins in Dec 2019. As an Ex Regular soldier serving currently in the Army Reserve, Cummins have been nothing but supportive over my Army Reserve career. I have been given time away to train, which has helped me maintain my commitment to the Army Reserve. As a member of the ERG I have proudly laid the wreath on Remembrance Day, and assisted with recruitment activities. ”
