

Power to build the future together

At Cummins, you'll be provided with continuous learning opportunities, supportive benefits and a culture that values your wellbeing, safety and work-life balance. Here, you'll have the power to determine your future with innovative technology, a focus on sustainability and with a company committed to growth.

The Veteran Employee Resource Group (VERG) was created to support military veterans, current service members and their families, both inside and outside of Cummins through internal programs and community outreach opportunities. The VERG supports and advocates for the understanding of military veteran needs throughout Cummins, and also offers a buddy program for veterans within the group.

Hiring Our Heroes partnership

Cummins proudly partners with Hiring Our Heroes, a program of the U.S. Chamber of Commerce Foundation, to support transitioning service members seeking civilian workforce experience during their final six months of military service. Fellowship opportunities are available in both onsite or remote roles across a variety of professional functions, including:

- Project/Program Management
- Supply Chain
- Sales
- IT/Cybersecurity
- Engineering

We host fellows on a cohort basis, with three cycles offered annually:

- January–March
- May–July
- August–November

DoD SkillBridge partnership

Cummins is honored to be an approved Department of Defense SkillBridge provider, offering active-duty service members the opportunity to train full-time during the final 180 days of service. This immersive experience provides hands-on exposure to our safety-focused work environment, helping participants build valuable skills and gain practical experience for a successful transition to a civilian career.

With over 140 branch locations across the United States, Cummins offers SkillBridge opportunities year-round with flexible start dates in multiple roles, including:

- Diesel Engine Technicians
- Power Generation Technicians
- Parts
- Service
