In 2022, Cummins received **SUSTAINALYTICS' 2022 INDUSTRY TOP RATED BADGE** for high performers among the thousands of companies the group reviews.

APPRENTICESHIP AND DUAL UNIVERSITY PROGRAM

The Apprenticeship and Dual University-Program offers a unique opportunity for individuals seeking a combination of classroom-based learning and on-the-job training.

As an apprentice at Cummins, you will have the chance to develop your skills and knowledge in a supportive and dynamic environment. Our program is designed to provide a comprehensive learning experience that prepares you for a successful career in the industry.

During the classroom-based portion of the program, you will have access to expert instructors who will guide you through a structured curriculum.

The dual apprenticeship program gives you the opportunity to apply and deepen the knowledge and skills you have acquired in real-life situations in the company. You will work closely with experienced professionals who will mentor and guide you, allowing you to gain practical, hands-on experience in your chosen field.

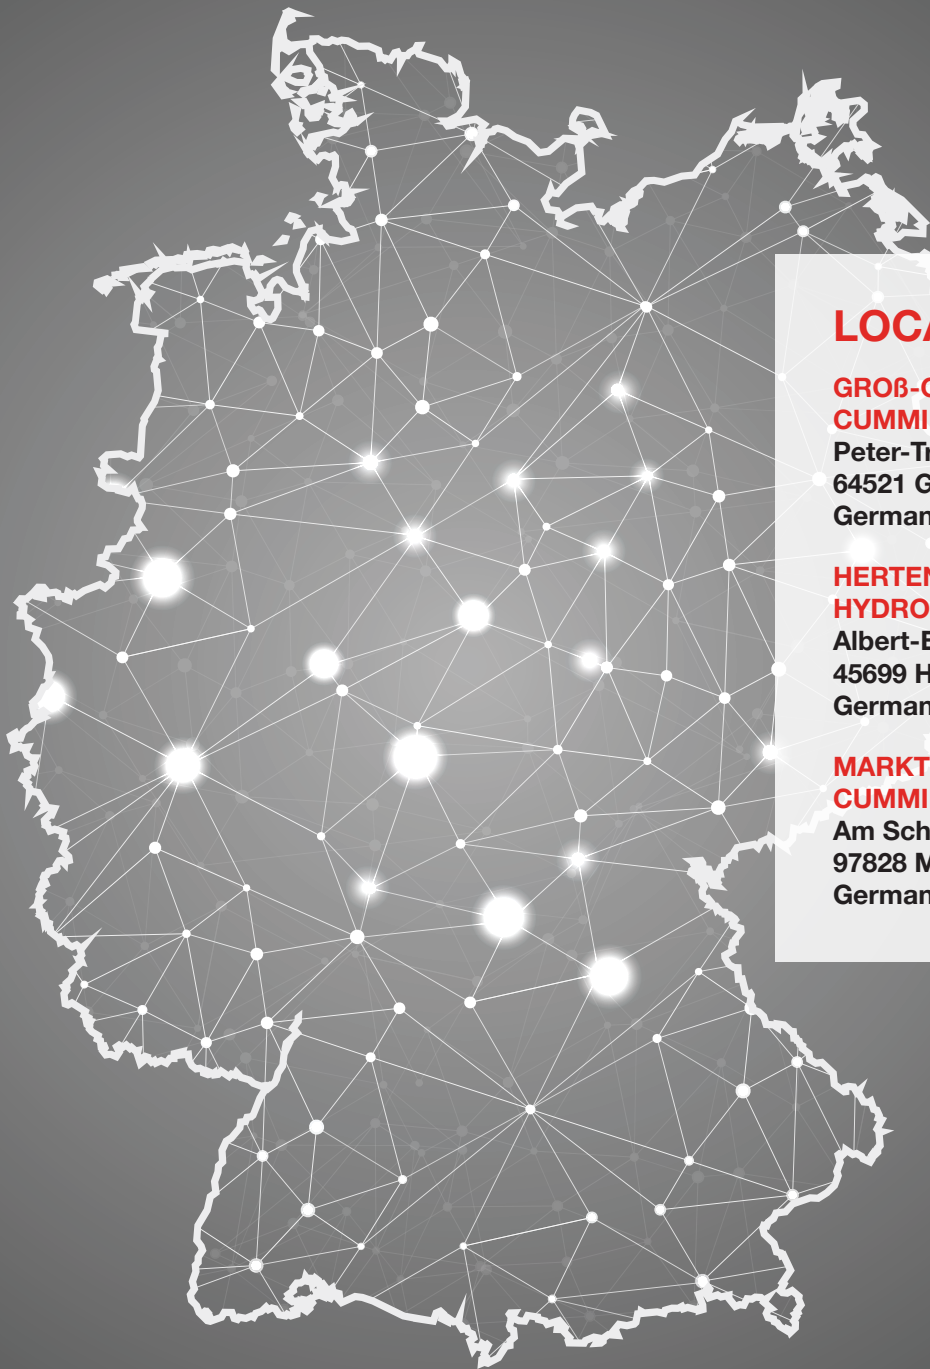

At Cummins, we believe in providing our apprentices with a well-rounded experience. Throughout the program, you will have the opportunity to work on challenging projects, participate in team-based activities, and develop essential skills such as problem-solving, communication, and teamwork.

If you are passionate about learning, eager to gain practical experience, and ready to embark on a rewarding career journey, we invite you to apply to the Apprentice and University Program. Take the first step towards a successful future with us!
