

# PGY-1 Pharmacy Residency

## Santa Rosa Memorial Hospital

ASHP Program Code: 92204

Match Number: 283013

Santa Rosa, CA

## About Santa Rosa Memorial Hospital

Santa Rosa Memorial is a 338 bed hospital, level 2 trauma center, located in Santa Rosa, California. We are an integral part of our community serving the greater Northern California area in beautiful wine country. We offer a large array of clinical services as would be expected from a level 2 trauma center. We have a long history serving the Santa Rosa community starting with the sisters of St. Joseph who started their nursing ministry in the Northern California region and slowly, over time, turning into one of the most important hospitals in the Northern Bay Area. We are in close proximity to several local attractions, including a variety of wineries in the Sonoma and Napa region, a number of state parks offering scenic hikes, as well as being about an hour away from San Francisco. As an important cornerstone of the community and located in a great area, Santa Rosa Memorial is an outstanding hospital for potential learners to grow in.

## Post-Graduate Year 1 (PGY-1) Residency Program

The PGY-1 Residency Program at Santa Rosa Memorial Hospital offers a large focus in the acute care setting. By serving such a large geographic area, we have a diverse patient population with a variety of patient cases that will help the resident become well-rounded in different settings and a strong clinical pharmacist by the end of the program. Residents will also be prepared, should they choose to, to apply for and thrive in a PGY-2 in variety of fields.

Candidates also be expected to obtain a Teaching Certificate with Touro University and learn to give lectures as well as precept students during their rotations.

The Santa Rosa Memorial Hospital PGY-1 program is ASHP accredited (Pending reaccreditation 2024/2025).

## Program Features

### By the end of the program, the resident should be able to:

- Independently provide patient specific recommendations regarding pharmacotherapy management in a variety of settings
- Manage and improve the medication-use system, including patient safety and quality-improvement processes
- Demonstrate project management skills to achieve defined outcomes
- Provide medication and practice-related education and training

## Program Structure

The traditional PGY-1 residency program will provide the resident with exposure to multiple areas of pharmacy practice including direct patient care rotations in the acute care setting .

## Rotations

### Required Rotations

- Orientation (4 weeks)
- Internal Medicine Medicine I (6 weeks)
- Critical Care (6 weeks)
- Infectious Diseases (6 weeks)
- Pharmacy Operations (6 weeks)
- Pharmacy Administration (6 weeks)

### Elective Rotation Opportunities

- Emergency Medicine (6 weeks)
- Oncology (6 weeks)
- Pediatrics
- Antimicrobial Stewardship
- Others as interested

### Longitudinal Experiences
